

NEW BUILD

New build, including commercial, retail and residential developments, utilises advanced building techniques to create outstanding properties - built to the highest standards.

With dedicated staff employing the very latest technology and materials with traditional craft skills, we are able to offer a comprehensive service enhancing a reputation of superb quality and attention to detail.

All our new-build developments are fully supplied by our comprehensive, highly-skilled joinery service which operates as a major trade supplier to building projects, shopfitters and joinery contractors nationwide.
